# 12th ANNUAL SUBSISTENCE MEMORIAL GATHERING

## *Welcome!*

*Welcome to the Chugach Regional Resources Commission 12<sup>th</sup> Annual Subsistence Memorial Gathering! Building upon last year's Gathering theme "EVOS 1989-2009: Resiliency of a People—Past, Present, and Future," this year we will be focusing on current initiatives, upcoming opportunities, and program reports demonstrating our resilience as a people and testament to the enduring ways of the Alutiiq People.*

*Under this new Administration, we are presented with many exciting opportunities, such as the potential for a viable loan program to fund the Community Quota Entity program and the development of a Community Development Financial Institution for individual and Tribal business loans. In addition, we continue to face environmental and natural resource challenges on a daily basis, and these will be discussed as well. The Exxon Valdez Oil Spill Trustee Council is seeking input on spending down their restoration reserve, potentially ending restoration efforts related to the Exxon Valdez Oil Spill. Tribes in Alaska must join together to address the need to legalize a fall and winter migratory bird subsistence hunt and seek an exemption from the federal Duck Stamp Act. We are in dire need of Tribal youth willing to pursue careers in the sciences to help address these issues. The K-12 Traditional Science Curriculum Project is designed to encourage students to consider the stewardship of our resources as a career.*

*Most importantly, this day is set aside to remember where we came from, why we live the lifestyle we do, and take the time to enjoy each other as Native people. Thank you for coming and sharing this wonderful day with us!*

*Patrick Norman, Chairman  
Chugach Regional Resources Commission*
